AMENDED ENVIRONMENTAL COMPLIANCE APPROVAL

NUMBER A7059701

Issue Date: February 8, 2019

The Corporation of the Municipality of Huron Shores
7 Bridge St P.O.Box 460, Iron Bridge
Huron Shores, Ontario
P0R 1H0

Site Location: Iron Bridge Landfill

Gladstone Township
Part North 1/2 Lot 6, Concession 3
Huron Shores Municipality, District of Algoma

You have applied under section 20.2 of Part II.1 of the Environmental Protection Act, R.S.O. 1990, c. E. 19 (Environmental Protection Act) for approval of:

a 60 hectare waste disposal site (landfill).

For the purpose of this environmental compliance approval, the following definitions apply:

"Approval" means this Environmental Compliance Approval and any Schedules to it, including the application and supporting documentation listed in Schedule "A";

"Director" means any Ministry employee appointed in writing by the Minister pursuant to Section 5 of the EPA as a Director for the purposes of Part II.1 of the EPA;

"District Manager" means the District Manager of the local district office of the Ministry for the geographic area in which the Site is located;

"EPA" means the Environmental Protection Act, R.S.O. 1990, as amended;

"Landfill" means the portion of the Site designated for the permanent deposition of waste;

"Ministry" and **"MECP"** means the ministry of the government of Ontario responsible for the EPA and includes all officials, employees or other persons acting on its behalf

"ODWS" means the Ontario Drinking Water Standards, as amended from time to time;

"Ontario Regulation 463/10" means Ontario Regulation 463/10, Ozone Depleting Substances and Other Halocarbons, made under the EPA;

"Ontario Regulation 903" means Ontario Regulation 903 – R.R.O. 1990, Wells, amended to Ontario Regulation 128/03, made under the OWRA;

"Operator" means any person, other than the Owner's employees, authorized by the Owner as having the charge, management or control of any aspect of the Site;

"Owner" means any person that is responsible for the establishment or operation of the Site being approved by this Approval, and includes Huron Shores Municipality, its successors and assigns;

"OWRA" means the Ontario Water Resources Act, R.S.O. 1990, c.0.40, as amended;

"PA" means the Pesticides Act, R.S.O. 1990, c. P-11, as amended from time to time;

"Provincial Officer" means any person designated in writing by the Minister as a provincial officer pursuant to section 5 of the OWRA or section 5 of the EPA or section 17 of PA;

"PWQO" means the Provincial Water Quality Objectives included in the July 1994 publication entitled *Water Management Policies, Guidelines, Provincial Water Quality Objectives*, as amended from time to time;

"Regulation 347" means Regulation 347, R.R.O. 1990, General - Waste Management, made under the EPA, as amended from time to time;

"RUG" means the Reasonable Use Guideline (Guideline B-7) of the Ministry;

"Site" means the entire 60 hectare waste disposal site, including the buffer lands, and any contaminant attenuation zone located at Part North 1/2 Lot 6, Concession 3, Huron Shores Municipality, District of Algoma;

"trained person" means a person that has been trained through instruction and/or practice, and receives refresher training, in accordance Condition 2.12 of this Approval.

You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

PART 1 - GENERAL

Revoke and Replace

1.1 This Approval revokes Provisional Certificate of Approval Waste Disposal Site No. A7059701 issued March 25, 1980. The approval given herein, including the terms and conditions set out, replaces all previously issued approvals and related terms and conditions under Part V of the EPA for this Site.

In Accordance With

1.2 Except as otherwise provided by these Conditions, the Site shall be designed, developed, used, maintained and operated, and all facilities, equipment and fixtures shall be built and or installed in accordance with the applications, supporting documentation, plans and specifications listed in Schedule A.

Compliance

1.3 The requirements specified in this Approval are requirements under the EPA. Issuance of this Approval in no way abrogates the Owner's legal obligations to take all reasonable steps to avoid violating other applicable provisions of this legislation and other legislation and regulations.

1.4 The requirements of this Approval are severable. If any requirements of this Approval, or the application of any requirement of this Approval to any circumstance, is held invalid, the application of such requirement to other circumstances and the remainder of this Approval shall not be affected in any way.

1.5 The Owner must ensure compliance with all terms and conditions of this Approval. Any non-compliance constitutes a violation of the EPA and is grounds for enforcement.

1.6 a. The Owner shall, forthwith upon request of the Director, District Manager, or Provincial Officer, furnish any information requested by such persons with respect to compliance with this Approval, including but not limited to, any records required to be kept under this Approval; and

b. In the event the Owner provides the Ministry with information, records, documentation or notification in accordance with this Approval (for the purposes of this condition referred to as "Information"),

- i. the receipt of Information by the Ministry;
- ii. the acceptance by the Ministry of the Information's completeness or accuracy; or
- iii. the failure of the Ministry to prosecute the Owner, or to require the

Owner to take any action, under this Approval or any statute or regulation in relation to the Information;

shall not be construed as an approval, excuse or justification by the Ministry of any act of omission of the Owner relating to the Information, amounting to non-compliance with this Approval or any statute or regulation.

Ministry Inspections

1.7 The Owner shall allow Ministry personnel, or a Ministry authorized representative(s), upon presentation of credentials, to:

- a. carry out any and all inspections authorized by Section 156, 157 or 158 of the EPA, Section 15, 16 or 17 of the OWRA or Section 19 or 20 of the PA, as amended from time to time, of any place to which this Approval relates; and,
- b. without restricting the generality of the foregoing, to:
 - i. enter upon the premises where records required by the conditions of this Approval are kept;
 - ii. have access to and copy, at reasonable times, any records required by the conditions of this Approval;
 - iii. inspect at reasonable times any facilities, equipment (including monitoring and control equipment), practices, or operations required by the conditions of this Approval; and
 - iv. sample and monitor at reasonable times for the purposes of assuring compliance with the conditions of this Approval.

Interpretation

1.8 Where there is a conflict between a provision of any document referred to in Schedule A, and the conditions of this Approval, the conditions in this Approval shall take precedence. Where there is a conflict between the documents listed in Schedule A, the document bearing the most recent date shall prevail.

Transparency

1.9 Any information relating to this Approval and contained in Ministry files may be made available to the public in accordance with the provisions of the Freedom of Information and Protection of Privacy Act, R.S.O. 1990, C. F-31.

Record Retention

1.10 All records and monitoring data required by the conditions of this Approval must be kept on the Owner's premises for a minimum period of five (5) years from the date of their creation.

Certificate of Requirement/Registration on Title

1.11 Pursuant to Section 197 of the EPA, no person having an interest in the Site shall deal in any way with the Site without first giving a copy of this Approval to each person acquiring an interest in the Site as a result of the dealing.

1.12 The Owner shall maintain a Certificate of Requirement in the appropriate Land Registry Office on title to the Site. The Certificate of Requirement shall include a registerable description of where easement rights have been obtained or the property has been purchased, in accordance with Form 4 of Regulation 688 under *Land Registration Reform Act*, R.R.O. 1990 c. L.4, as amended.

Notification

1.13 The Owner shall ensure that all communications/correspondence made pursuant to this Approval references Environmental Compliance Approval No. A7059701.

1.14 The Owner shall notify the District Manager in writing within thirty (30) days of becoming aware of any of the following changes:

- a. change of Owner/Operator of the Site or both: and
- b. address of the new Owner or change of address.

PART 2 - GENERAL OPERATIONS

Service Area

2.1 Only wastes generated from within the geographic boundaries of the Municipality of Huron Shores may be received and disposed of at the Site.

Signage and Security

2.2 A sign shall be posted at the entrance gate of the Site with the following information:

- a. name of the Site and Owner
- b. Environmental Compliance Approval No. for the Site
- c. days and hours of operation of each area of the Site;

- d. allowable and prohibited waste types in the Landfill, Waste Diversion Bins and Segregation Areas;
- e. contact telephone number(s); and
- f. warning against unauthorized access and against dumping outside the Site.

2.3 The Owner shall ensure that:

- a. access to the Site is restricted by fencing and/or natural features;
- b. fencing and lockable gate are kept in good repair; and
- c. the Site is screened from public view on all sides.

Operating Hours

2.4 The Owner shall set operational hours, for each waste management activity conducted within the Site, which provides an adequate level of service. Hours of operation may be changed by the Owner at any time provided that the hours are correctly posted at the Site gate and that public notice is given for any changes.

2.5 No waste shall be received at the Site except during the hours of operation and under the supervision of a trained person.

2.6 The Owner shall ensure that during non-operating hours, the Site entrance and exit gates, or areas of the Site which are not open to the public at those times, are locked or otherwise secured against access by unauthorized persons.

2.7 During non-operating hours when waste disposal is not permitted, the Owner may conduct equipment maintenance, administrative functions, and on-site activities including waste compaction and application of cover material, as required.

Nuisance Control

2.8 If at any time problems such as odours, dust, litter, noise, vectors, vermin, rodents, bears or other nuisances are found at the Site, the Owner shall take appropriate, immediate remedial action to eliminate the problem.

2.9 The Owner shall implement a litter control plan which shall include:

- a. taking all practical steps to prevent the escape of litter from the Site;
- b. monthly litter pick-up at the Site;
- c. monthly litter pick-up along the access road in the vicinity of the Site;

- d. private property adjacent to the Landfill shall be inspected as required and litter shall be collected if necessary, with permission from the property owner; and
- e. litter fencing shall be erected around the working area of the landfill as required.

Burning Waste Prohibited

2.10 The burning of waste at the Site is prohibited.

2.11 Notwithstanding Condition 2.10, the burning of segregated, clean wood and brush at the landfill may be carried out in strict compliance with the Ministry document titled "Guideline C-7, Burning at Landfill Sites" dated April 1994.

Staff Training

2.12 The Owner shall develop and maintain a training plan for current and new Site employees and shall ensure that all Site employees have been adequately trained and receive on-going training with respect to the following:

- a. terms, conditions, and operating requirements of this Approval;
- b. an outline of the responsibilities of employees for each waste management activity undertaken at the Site;
- c. operation and management of the Site, or area(s) within the Site, in accordance with the specific job requirements of each individual employee, including but not limited to procedures for receiving, screening and identifying waste, refusals, handling and temporarily storing wastes;
- d. the operation, inspection, and maintenance of the Site, or area(s) within the Site, with respect to the approved design and operations documents listed in Schedule "A";
- e. record keeping requirements specific to each area / waste management activity;
- f. procedures for responding to public complaints;
- g. environmental concerns related to the type of waste handled in each area of the Site;
- h. occupational health and safety concerns related to waste management at the Site; and
- i. emergency procedures and contingency plans in cases of fire, spills, off-site impacts and any other emergency situations.

Complaints

2.13 If at any time, the Owner receives complaints regarding the operation of the Site,

or an area within the Site, the Owner shall respond to these complaints according to the following procedure:

- a. The Owner shall record each complaint on a formal complaint form entered in a log book. The information recorded shall include the nature of the complaint, the name, address and telephone number of the complainant and the time and date of the complaint;
- b. The Owner, upon notification of the complaint, shall initiate appropriate steps to determine all possible causes of the complaint, proceed to take the necessary actions to eliminate the cause of the complaint and forward a formal reply to the complainant; and
- c. The Owner shall retain on-site a report written within one (1) week of the complaint date, listing the actions taken to resolve the complaint and any recommendations for remedial measures, and managerial or operational changes to reasonably avoid the reoccurrence of similar incidents.

Emergency Response

2.14 The Owner shall take immediate measures to clean-up all spills, related discharges and process upsets of wastes which result from the operation of any portion of the Site.

2.15 All spills and upsets shall be immediately reported to the Ministry's Spills Action Centre at 416- 325-3000 or 1-800-268-6060 and shall be recorded in a written log or an electronic file format, as to the nature of the spill or upset, and the action taken for clean-up, correction and prevention of future occurrences.

PART 3 - LANDFILL OPERATIONS

Waste Type

3.1 Only solid non-hazardous municipal waste, including wastes generated by residential, industrial, commercial and institutional sectors shall be received for disposal at this Landfill. No hazardous waste, as defined in Regulation 347, shall be disposed of at this Landfill.

3.2 Asbestos shall only be accepted at the Landfill in accordance with Section 17 of Regulation 347.

Waste Placement

3.3 a. The Owner shall ensure that no waste is disposed of outside the limits of fill area and final contours. Final contours shall not exceed 4H:1V and shall not be less than

b. The Landfill footprint shall be clearly marked at all times to prevent any fill beyond approved limits;

Cover Material

3.4 a. Cover material shall be applied as follows:

- i. Cover material consisting of a minimum of 0.10 m thickness of soil or approved alternative daily cover shall be applied once per week from May 1st until November 1st and once per month for the remainder of the year; and
- ii. The Owner shall increase the frequency of cover material application if it is determined by the District Manager or by the Owner that the frequency outlined in Condition 3.5(a)(i) does not provide adequate control.

- b. In areas where waste placement is below the final approved contours and landfilling is to be suspended for six months or more, an interim cover consisting of a minimum of 0.30 m thickness of soil shall be applied;
- c. In landfilling areas which are no longer in use (i.e. historical) and where final contours have reached, a final cover of 0.60 m thickness of soil with an additional 0.15 m of topsoil shall be applied; and
- d. Where existing cover material has eroded such that waste is exposed, the cover material shall be replaced promptly.

Inspections

3.5 The Owner shall ensure that the following Landfill inspection schedule is adhered to:

- a. on each operating day, an inspection of the working face and storage areas, cover of waste, signage, fencing and gate;
- b. on a monthly basis, an inspection of the areas under final cover, road condition, access road and adjacent property litter inspection; and
- c. on an annual basis, an inspection of the monitoring wells and every five (5) years, a field survey of the limit of the fill area.

PART 4 - MONITORING PROGRAM

Compliance

4.1 The *Site* shall be operated in such a way as to ensure compliance with the following:

- a. Reasonable Use Guideline B-7 for the protection of the groundwater at the *Site*; and
- b. Provincial Water Quality Objectives included in the July 1994 publication entitled *Water Management Policies, Guidelines, Provincial Water Quality Objectives*, as amended from time to time or limits set by the *Regional Director*, or the *Canadian Water Quality Guidelines* published by the Canadian Council of Ministers of the Environment, 1999 for the protection of the surface water both on and off the *Site* .

Monitoring Plan

4.2 The Owner shall construct and maintain to the satisfaction of the *Ministry*, a groundwater and surface water monitoring network which delineates the horizontal and vertical extent of leachate migration resulting from the landfilling activities at the *Site*.

The groundwater monitoring network shall adequately evaluate up-gradient or trans-gradient water quality for natural uncontaminated groundwater, at least one well to represent leachate impacted water, and at least one down-gradient well for a *Reasonable Use Criteria Assessment* .

4.3 Groundwater samples from all wells in the above-described monitoring network will be obtained and analyzed at least once during maximum water level conditions and at least once during the minimum water level conditions. Groundwater elevations in all monitoring wells shall be measured during each monitoring event prior to obtaining water quality samples.

4.4 Copies of the proposed design and locations of the groundwater monitoring network shall be submitted to the *Director* and *District Manager* for approval, within twelve (12) months from the date of this *Approval*.

4.5 A Professional Geoscientist or Professional Engineer possessing appropriate hydrogeologic training and experience shall execute or directly supervise the execution of the groundwater monitoring and reporting program.

4.6 A written report on the development, operation and monitoring of the *Site* , shall be completed annually (the “Annual Report”). The Annual Report shall be submitted to the *District Manager*, by March 31st of the year following the period for which monitoring occurred.

Groundwater Wells and Monitors

4.7 The Owner shall ensure that all groundwater monitoring wells which form part of the monitoring program are properly capped, locked and protected from damage.

4.8 Any groundwater monitoring well included in the on-going monitoring program that are damaged shall be assessed, repaired, replaced or decommissioned by the Owner, as required.

- a. The Owner shall repair or replace any monitoring well which is destroyed or in any way made to be inoperable for sampling such that no more than one regular sampling event is missed.
- b. All monitoring wells which are no longer required as part of the groundwater

monitoring program, and have been approved by the *District Manager* for abandonment, shall be decommissioned by the *Owner*, as required, in accordance with O.Reg. 903, that will prevent contamination through the abandoned well. A report on the decommissioning of the well shall be included in the Annual Report for the period during which the well was decommissioned.

Changes to the Monitoring Plan

4.9 The *Owner* may request to make changes to the monitoring program(s) to the *District Manager* in accordance with the recommendations of the annual report. The *Owner* shall make clear reference to the proposed changes in separate letter that shall accompany the annual report.

4.10 Within thirty (30) days of receiving the written correspondence from the *District Manager* confirming that the *District Manager* is in agreement with the proposed changes to the environmental monitoring program, the *Owner* shall forward a letter identifying the proposed changes and a copy of the correspondences from the *District Manager* and all other correspondences and responses related to the changes to the monitoring program, to the *Director* requesting the *Approval* be amended to approve the proposed changes to the environmental monitoring plan prior to implementation.

4.11 In the event any other changes to the environmental monitoring program are proposed outside of the recommendation of the annual report, the *Owner* shall follow current ministry procedures for seeking approval for amending the *Approval*.

PART 5 - LANDFILL DESIGN AND DEVELOPMENT

Design and Operations Report

5.1 Within twelve (12) months from the date of this *Approval*, the *Owner* shall submit for the *Director's* approval, a Design and Operations Report that includes, as a minimum, the following information:

- a. proposed landfill design including the footprint, final contours, capacity and an estimate of the amount of existing waste which is based on a site plan;
- b. an estimate of waste types and quantities to be landfilled at the site and recycling and resource recovering activities at the *Site*;
- c. location and description of the access road and the on-site roads at the *Site*;
- d. description and location of the fencing and the gate(s);
- e. screening of the *Site* from the public, both visual and the protection from the noise impact;
- f. details of the clean surface water drainage from the *Site* and any works required to prevent extraneous surface water from contacting the active working face;
- g. description of the fill method, the equipment used at the *Site*, the areas used for various fill methods of landfilling, and timelines for various phases of the *Site* development;

- h. the operating hours of the *Site* and the hours for the various activities to be undertaken at the *Site*, including waste compaction, waste coverage and other activities within the *Site*;
- i. details on winter operations;
- j. the equipment used and the procedures used for waste deposition, spreading and covering;
- k. details on supervision and monitoring of the activities at the *Site*;
- l. details on handling of other wastes, including the types and amounts of wastes handled, storage locations, storage facility design/description and the frequency of removal from the *Site*;
- m. details on housekeeping practices undertaken to control noise, dust, litter, odour, rodents, insects and other disease vectors, scavenging birds or animals;
- n. details on the closure of the *Site*, including the description of the final cover and its estimated permeability, its thickness, the source of the final cover material, the thickness of the top soil and the vegetation proposed for the closed waste mound, as well as the time frame for the progressive waste coverage;
- o. monitoring program for the surface and ground water;
- p. site-specific trigger mechanism program for the implementation of the groundwater and surface water, contingency measures and a description of such measures;
- q. landfill gas control or management required at the *Site*;
- r. maintenance activities proposed for the *Site* and for the monitoring well network, including the type of the activities, the frequency of the activities and the personnel responsible for them;
- s. inspection activities proposed for the *Site*, including the frequency of the activities and the personnel responsible for them;
- t. details of training provided for the personnel responsible for the activities at the *Site*;
- u. contingency plans for the emergency situations that may occur at the *Site*;
- v. storm water management, including the location and the design of any works required; and
- w. any other information relevant to the design and operation of the *Site* or the information required by the *District Manager*.

Closure Plan

5.2 At least 2 years prior to the anticipated date of closure of this *Site* or when the *Site* reaches 90% of its capacity, whichever comes first, the *Owner* shall submit to the *Director* for approval, with copies to the *District Manager*, a detailed *Site* closure plan pertaining to the termination of landfilling operations at this *Site*, post-closure inspection, maintenance and monitoring, and end use. The plan shall include but not be limited to the following information:

- a. a plan showing *Site* appearance after closure;
- b. a description of the proposed end use of the *Site*;
- c. a description of the procedures for closure of the *Site*, including:

- i. advance notification of the public of the landfill closure;
- ii. posting of a sign at the *Site* entrance indicating the landfill is closed and identifying any alternative waste disposal arrangements;
- iii. completion, inspection and maintenance of the final cover and landscaping;
- iv. *Site* security;
- v. removal of unnecessary landfill-related structures, buildings and facilities;
- vi. final construction of any control, treatment, disposal and monitoring facilities for leachate, groundwater, surface water and landfill gas; and
- vii. a schedule indicating the time-period for implementing sub-conditions (i) to (vi) above;

d. descriptions of the procedures for post-closure care of the *Site*, including:

- i. operation, inspection and maintenance of the control, treatment, disposal and monitoring facilities for leachate, groundwater, surface water and landfill gas;
- ii. record keeping and reporting; and
- iii. complaint contact and response procedures;

e. an updated estimate of the *contaminating life span* of the *Site*, based on the results of the monitoring programs to date.

5.3 The *Site* shall be closed in accordance with the closure plan as approved by the *Director*.

Schedule "A"

This Schedule "A" forms part of Environmental Compliance Approval No. A471801. No items included in Schedule A at time of issuance.

The reasons for the imposition of these terms and conditions are as follows:

The reason for Condition 1.1 is to clarify that the previously issued Certificate of Approval No. A7059701 issued on March 25, 1980 are no longer in effect and has been replaced and superseded by the Terms and Conditions stated in this Approval.

The reason for Conditions 1.2 and 5.1 is to ensure that the Site is operated in accordance with the application submitted by the Owner, and not in a manner which the

Director has not been asked to consider.

The reason for Conditions 1.3, 1.4, 1.5, 1.6, 1.9, 1.13, and 1.14 is to clarify the legal responsibilities and obligations imposed by this Approval.

The reason for Condition 1.7 is to ensure that appropriate Ministry staff have ready access to the Site in order to confirm that the Site is being operated according to this Approval. The condition is supplementary to the powers afforded a Provincial Officer pursuant to the EPA, the OWRA, and the PA, as amended.

The reason for Condition 1.8 is to clarify how to interpret this Approval in relation to the application and supporting documentation.

The reason for Condition 1.10, is to ensure that accurate records are maintained and available for review to demonstrate compliance with the conditions of this Approval, the EPA and its regulations.

The reason for Conditions 1.11 and 1.12 is to protect future occupants of the Site and the environment from any hazards which might occur as a result of waste being disposed of on the site. This prohibition and potential hazard should be drawn to the attention of future owners and occupants by the Approval being registered on title.

The reason for Condition 2.1 is to specify the approved areas from which waste may be accepted at the Site.

The reason for Condition 2.2 is to ensure that users of the Site are informed of the hours and services available as well as given contact information in the event of a complaint or emergency.

The reason for Condition 2.3 is to minimize the risk of unauthorized entry.

The reason for Conditions 2.4, 2.5, 2.6, 2.7, 2.8, 2.9, 2.10 and 2.11 is to ensure that the Site is operated in a manner which does not result in a nuisance or a hazard to the health and safety of the environment or people.

The reason for Condition 2.12 is to ensure the Site is only operated in the presence of trained personnel and to ensure that the operations are undertaken in accordance with the requirements of this Approval.

The reason for Condition 2.13 is to ensure that complaints are properly and quickly resolved and that complaints and follow-up actions have been documented.

The reason for Condition 2.14 is to ensure the Owner immediately responds to a spill.

The reason for Condition 2.15 is to ensure that the Owner notifies the Ministry forthwith of any spills so that an appropriate response can be determined.

The reason for Conditions 3.1, and 3.2 is to state the amounts and types of waste that may be accepted, based on the application and the supporting documentation.

The reason for Condition 3.3 is included to ensure that waste disposal remains within the approved limits.

The reason for Condition 3.4 is included to ensure that the waste is covered with a suitable daily, interim and final cover material in a timely manner, to minimize the environmental impacts from the disposal of waste.

The reason for Conditions 3.5 are included to ensure that efficient and environmentally sound procedures are employed during the operation of the landfill site.

The reason for Condition 4.1 is to provide the groundwater and surface water limits to prevent water pollution at the Site.

The reason for Conditions 4.2, 4.3, 4.4, and 4.5 are to require the Owner to demonstrate that the Site is performing as designed and the impacts on the natural environment are acceptable. Regular monitoring allows for the analysis of trends over time and ensures that there is an early warning of potential problems so that any necessary remedial/contingency action can be taken. the groundwater and surface water limits to prevent water pollution at the Site.

The reason for Conditions 4.6 is to ensure that regular review of site development, operations and monitoring data is documented and any possible improvements to site design, operations or monitoring programs are identified. An annual report is an important tool used in reviewing site activities and for determining the effectiveness of site design.

The reason for Conditions 4.7 and 4.8 is to ensure the integrity of the groundwater monitoring network so that accurate monitoring results are achieved, the natural environment is protected, and to ensure that groundwater monitoring wells are properly maintained and decommissioned as required by Regulation 903.

The reason for Conditions 4.9, 4.10, and 4.11 are to outline the process for making changes to the monitoring plan and amending the Approval.

The reason for Conditions 5.1 is to outline the design and operation of the landfill that is acceptable to the Ministry and prevent impacts to the environment.

The reason for Conditions 5.2 and 5.3 is to ensure the final closure of the Site is completed in an aesthetically pleasing manner, in accordance with Ministry standards, and to ensure the long-term protection of the health and safety of the public and the environment.

**Upon issuance of the environmental compliance approval, I hereby revoke
Approval No(s). A7059701 issued on March 25, 1980**

In accordance with Section 139 of the Environmental Protection Act, you may by written Notice served upon me and the Environmental Review Tribunal within 15 days after receipt of this Notice, require a hearing by the Tribunal. Section 142 of the Environmental Protection Act provides that the Notice requiring the hearing shall state:

- a. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
- b. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

Pursuant to subsection 139(3) of the Environmental Protection Act, a hearing may not be required with respect to any terms and conditions in this environmental compliance approval, if the terms and conditions are substantially the same as those contained in an approval that is amended or revoked by this environmental compliance approval.

The Notice should also include:

1. The name of the appellant;
2. The address of the appellant;
3. The environmental compliance approval number;
4. The date of the environmental compliance approval;
5. The name of the Director, and;
6. The municipality or municipalities within which the project is to be engaged in.

And the Notice should be signed and dated by the appellant.

This Notice must be served upon:

The Secretary*
Environmental Review Tribunal
655 Bay Street, Suite 1500
Toronto, Ontario
M5G 1E5

AND

The Director appointed for the purposes of Part II.1 of the Environmental Protection Act
Ministry of the Environment, Conservation and Parks
135 St. Clair Avenue West, 1st Floor
Toronto, Ontario
M4V 1P5

* Further information on the Environmental Review Tribunal's requirements for an appeal can be obtained directly from the Tribunal at: Tel: (416) 212-6349, Fax: (416) 326-5370 or www.ert.gov.on.ca

The above noted activity is approved under s.20.3 of Part II.1 of the Environmental Protection Act.

DATED AT TORONTO this 8th day of February,
2019

Mohsen Keyvani, P.Eng.
Director
appointed for the purposes of Part
II.1 of the *Environmental Protection
Act*
